Welcome to ICEEES 2016

Conference Theme: To Fuel the World with Ecologically, Economically Sustainable Energy

We are pleased to announce that the International Conference on Energy for Environmental and Economic Sustainability (ICEEES 2016) will be held in the historical city of Lahore, Pakistan from Oct 20 to Oct 23, 2016. As a significant event for the new energy market the conference will provide a highly interactive platform for leading new energy researchers, experts and enterprisers to discuss recent advances in the science and technology of clean and renewable new energy. The meeting will also provide an excellent opportunity for experts to develop international cooperative relationships for mutual benefit and development within new energy field. Let's make joint efforts for a clean, green and economically sustainable world.
